Reclaim Toploader 10-13.3

Toploaded notebook bag made of recycled PET

Reclaim Toploader is a practical notebook bag that conveniently gives you access to the notebook thanks to its toploader design. This bag is part of our Reclaim collection that consists of notebook cases made primarily from recycled PET. Recycled PET is a type of polyester that has a considerably lower impact on the environment compared to newly produced polyester. The collection is one way DICOTA is making a substantive contribution to lower our environmental footprints.

Your notebook is kept safely in place in the lockable notebook compartment that is cushioned with HDF (High Density Foam) thanks to the notebook strap. There is plenty of room both for cables and documents in the other compartments of the bag and there is also zippered document compartment as well as a document slip pocket on the back. Accessories such as mobile phone and pens can be placed in the designated compartments in the spacious front pocket. You can carry the bag in the comfortable neoprene handles or use the detachable and adjustable shoulder strap. Reclaim Toploader can also be attached to a roller thanks to the trolley belt.

10-13.3

Art.No.: D30469

Weight: 0.62kg / 1lbs, 5.9ounces

≤ 12.8 x 1.38 x 9.45 inches
≤ 325 x 35 x 240 mm
